Organization and Nature of Operations

Collins & Company, LLC (Company) was formed on July 7, 1999. The Company received permission from the New York Stock Exchange to conduct business as Collins & Company, LLC on October 8, 1999. Prior to that date, the Company operated under the name of Collins & Co. (predecessor company) as it has since 1969. Effective March 7, 2006, the Company ceased operating as a New York Stock Exchange member organization because the New York Stock Exchange Group acquired the Company's membership.

The Company is registered as a broker/dealer in securities under the Securities and Exchange Act of 1934. In addition, as an introducing member, it forwards retail customer transactions to a clearing member on a fully disclosed basis. The Company also conducts an investment advisory service and an investment management service for its customers. The Company is a registered investment advisor in accordance with the Investment Advisors Act of 1940.

(1) Summary of Significant Accounting Policies

Investment securities are carried at market value.

Depreciation of furniture and equipment is provided on straight-line and accelerated bases over estimated useful lives of three to seven years. Depreciation of leasehold improvements is provided on a straight-line basis over the remaining life of the lease.

Cash includes demand deposit accounts and money market fund investments, which have maturities of three months or less.

The preparation of financial statements in conformity with generally accepted accounting principles requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements. Actual results could differ from those estimates.

The capital ratio as of December 31, 2007, was 0.60 to 1. (3) Reserve Requirements

The Company is exempt from the reserve requirements of Rule 15c3-3 of the Securities Exchange Act of 1934 under paragraph (k)(2)(B) of the Rule.

(6) Financial Instruments

The Company's financial instruments, none of which are for trading purposes, include cash, accounts receivable, investment securities, accounts payable and income taxes payable. The Company estimates that the fair value of all financial instruments at December 31, 2007, does not materially differ from the aggregate carrying values in the statement of financial condition. The estimated fair value amounts have been determined by the Company using available market information and appropriate valuation methodologies. Considerable judgment is necessarily required in interpreting market data to develop the estimates of fair value, and accordingly, the estimates are not necessarily indicative of the amounts that the Company could realize in a current market exchange.
